Closed all day Thanksgiving!

That Glorious Millinery Sale!

Never before in the annals of the Millinery business have such absurdly low prices been quoted for a season's most fashionable millinery. We took an importer's immense stock and thought it too big, but being offered at 33 1-3 cents on the dollar has created such enthusiasm and tremendous demand there is now danger of its not holding out a week.

The stock includes Birds of all colors and kinds, Mercury Wings, Paradise Algebras, Cane Feathers, bunches of Quills, Parrot Feathers, Steel, Ribbon and Jet ornaments, Stylish Felt Hats, Chenille Hats, lovely Rose Bunches, Millinery Ribbon and Silk Trimming Velvets. We have divided them into lots and spread them over the first floor to help your seeing and picking without crowding.

Big lot of Feathers at 5c. choice.
Big lot of Feathers at 10c. choice.
Big lot of Feathers at 15c. choice.
Big lot of Feathers at 20c. choice.

Ornaments worth up to 40c. for 13c.
Ornaments worth up to 75c. for 25c.
Ornaments worth up to 85c. for 45c.
Ornaments worth up to \$1.25 for 50c.

25c. Jetted Ostrich Tips for 14c.
50c. Ostrich Short Plumes for 27c.

75c. to \$1.25 Felt Hats, 16c.

This was the biggest purchase of Felt Hats ever consummated by any one firm in Washington.

75c. to \$1.25 Felt Hats at 16c. each.
\$1.48 and \$1.98 Felt Hats for 80c. each.
\$2 and \$3 Chenille Hats, 95c. each.

48c. bunches of Roses, 27c.
\$1 Silk Velvets, all colors, 30c. yd.
39c. All-silk 5-in. Ribbons, 21c. yd.

Last of the 4 lots Of Ladies' Coats.

Tomorrow will be the last day of the four special reduced lots of Coats. The few that remain tomorrow night will be placed back in stock at regular prices. No such coat values have ever been offered.

\$5 Coats for \$3.93.

Ladies' Black Chenille "Box" Coats, velvet collar, mandarin sleeves. Regular price, \$5.

Tomorrow, \$3.93.

Choice, \$11.63.

This lot comprises the fall season's choicest Coats, in Astrakhan, Tataragras, Bouclés, Rough Cheviots, Diagonals and Smooth Kerseys, made in the stylish "box" style, which are cut high around the neck and button diagonally across the front, with two immense buttons. These are cheap at their regular prices.

Choice, \$14.59

In the above named lot you will find a few of those Elegant "Novelty" Fancy Silk-lined Rough Coat Coats, brought out during the recent horse show in New York, which belong at \$17.50 and \$18.50.

\$8 Silk Waists, \$5.59.

A recent fashion article states that the horse show emphasizes one fact, and that was that Silk Waists were the popular "fad" for the winter. We have secured 10 beautiful patterns of Brocade, Figure and Striped Silk Waists, usually sold at \$8, which we shall offer tomorrow.

For \$5.59.

Rough Cheviots, Bouclés and Smooth Kerseys, Beavers, etc., in the stylish 2 and 3 styles of them.

\$9.98, \$10.48 and \$10.98 COATS, \$9.13.

About two dozen different styles, in both smooth and rough cloths, from which to select. Perfect in shape, big sleeves, with and without velvet collar, and were grand values at their former prices. Were \$9.98, \$10.48 and \$10.98.

Choice, \$9.13.

\$12, \$12.50, \$13 & \$13.50 COATS, \$11.63

Rough Cheviots, Bouclés and Smooth Kerseys, Beavers, etc., in the stylish 2 and 3 styles of them.

TO PLAY TWO GAMES

Interest in Foot Ball to Be Divided Thursday.

INTERESTING BASKET BALL CONTEST

Party of Cyclists Wheel to Annapolis.

GENERAL SPORTING NEWS

The devotees of foot ball in this city will have plenty of chance to gratify their desires Thanksgiving day with a game at Capitol Park between the Columbian University and the Columbia Athletic Club, and one at National Park between the Orient and Potomac athletic clubs. The first game will probably have the largest attendance, but the latter will have all the advantages that a good field and two evenly matched teams can give.

The selections for the university team have narrowed down until there are not more than a couple of contestants for each position, while some of the places have been filled permanently. Taylor will play left guard, Cockrell right half, Beard left half and Weaver full back. Center line between Johnson and Harlan, right guard between Hicks and Clapp; right tackle, Shuster or Gambrell; left tackle, D. Fugitt or Doolittle; right end, Bravner or Wagner; quarter back, Mills or McDowell, and left end, Harris or Baker. With the candidate on hand that are now on paper, an exceptionally strong team should be made up that would give the C. A. C. a hard tussle.

The game at National Park will also be a most interesting one. The Potomacs and Orient are both strong teams, and as some people think, should have played the C. A. C. instead of the Columbian University. The two teams played not long ago, and neither side was able to score a point, so the coming contest bids fair to be exceptionally brilliant in the matter of plays. The recent game between these two teams also deserves a word for its clean playing, which was entirely free from unnecessary roughness and ungraciously conduct. The Potomacs were defeated by the Galaudets by a small score, while the Orient played the game to a standstill. The only defeat of the Orient was administered by the Baltimore aggregation Saturday. The game will be called promptly at noon.

MANY GOOD PLAYS CHECKED.

An Interesting Game of Basket Ball

The game of basket ball played last evening in the rifle gallery of the National Guard between the teams of the Y. M. C. A. and the Cycle Corps was one of the cleanest, hardest-fought games that has been played in the series. Although the Cycle Corps came out victorious by a score of 6 to 1, they had to work with all their energies to attain that end, and several times it looked as though they were giving up.

It has been claimed by several persons interested in the game of basket ball that the contests were degenerating into wrestling matches and slugfests, but with a little foot ball thrown in, but last evening's game demonstrated that such can be played as it should be, if the players will only conform to the rules. A number of persons were present to witness the games, and frequently applauded the good plays made.

Wheeled to Annapolis.

A party of cyclists, consisting of F. Galatz, G. E. Stratton, H. I. Dodge, S. Moore, M. Taylor and H. P. Stratton, made a run to Annapolis Saturday night, leaving the city at 11 o'clock and arriving in Annapolis at 9:30 the next morning. After leaving Washington a drizzling rain set in. About fourteen miles outside of Annapolis Dodge's pedal crank broke, which made it necessary for him to push one pedal the rest of the way. A little further on Moore's rim was smashed by running over a rut. The arrival at Annapolis they were a tired lot. Owing to the bad condition of Moore's wheel, he, with Galatz, returned on the train. The other four left Annapolis at 1:30 Sunday afternoon, and after stopping over at Landover for the night, arrived here yesterday at 11 o'clock.

Plimmer Knocked Out.

Before the National Sporting Club last night in London "Pedlar" Palmer defeated "Bully" Plimmer in the contest for the 112-pound championship of the world, the battle lasting fourteen rounds.

The National Sporting Club was so crowded with members and visitors that some of those in attendance almost fought for seats. Plimmer was a hot favorite in the betting. The weights of the two men were as follows: Plimmer, 111½; Plimmer looked more fit than his antagonist. During the thirteenth round Plimmer be-

A MAN WITH A TAIL.

He Greatly Regrets That Tails in His Tribe Are Now Becoming Very Rare.

From the New York Sun.

A man with a tail is one of the latest discoveries reported by an explorer. Mr. Paul d'Enjoy, an official of France in French Cochinchina, has had the felicity of making this addition to knowledge. He met the gentleman with the caudal appendage among the Mol who live in the north of French Cochinchina, and his discovery is reported in the Bulletin of the Paris Geographical Society.

Mr. d'Enjoy entered the country of these wild people in the spring of 1890, and the first village he saw in the unbroken forest greatly surprised him. There was only one habitation, and it was in the form of a tunnel 150 feet long, made of sticks meeting at the top like the sides of the letter A, and covered with leaves. The tunnel was a little more than three feet high, six or seven feet wide at the base of the triangle, and was open at each end.

Some children who were playing outside raised a howl as they saw the white man and his party, and at once some wild-looking creatures rushed out of the tunnel and clattered away into the woods like so many monkeys. The explorer suggests that these Mol tribes are very likely the same as the Mol who are mentioned in the sacred books of India.

One man was up in a tree engaged in gathering honey. He was greatly alarmed at the sight of his companions, and down he came as fast as he could, stepping on bits of wood that had been driven into the tree, till he was fifteen feet from the ground, when he sprang down and tried with lowered head, to break through the circle of men who had surrounded the tree; but he was captured and taken to the camp.

After while he was induced to talk. He was a tall, well-made fellow, with vigorous limbs, and looked like a bronze statue. He talked in a close, guttural way, and of his friends, and wonderful to relate, he had a tail! Here is a faithful translation of what Mr. d'Enjoy says about it:

"This discovery stupified me. I approached him, and to be certain that I was not the plaything of an illusion I felt with my hand his caudal appendage. I say that he was a man with a tail, and that the vertebral column of the Mol was prolonged beyond the body by three or four vertebrae, so as to form a small bone with a mouse, like those of his friends, and wonderful to relate, he had a tail! Here is a faithful translation of what Mr. d'Enjoy says about it:

"This discovery stupified me. I approached him, and to be certain that I was not the plaything of an illusion I felt with my hand his caudal appendage. Here is a faithful translation of what Mr. d'Enjoy says about it:

"This discovery stupified me. I approached him, and to be certain that I was not the plaything of an illusion I felt with my hand his caudal appendage. I say that he was a man with a tail, and that the vertebral column of the Mol was prolonged beyond the body by three or four vertebrae, so as to form a small bone with a mouse, like those of his friends, and wonderful to relate, he had a tail! Here is a faithful translation of what Mr. d'Enjoy says about it:

"This discovery stupified me. I approached him, and to be certain that I was not the plaything of an illusion I felt with my hand his caudal appendage.
